## AFRAID TO RETURN.

Landlords Fearful of Going Back to  
Their Estates Owing to Agitation  
Relative to Dividing  
Up the Land.

St. Petersburg, March 16.—The zemstvos and doumas throughout Russia are taking advantage of the imperial ukase issued simultaneously with the rescript conferring upon "individuals and institutions" the right to freely petition the emperor through the committee of ministers on all questions affecting the welfare of the empire to demand representation upon the commission which is elaborating the rescript. The importance of the ukase, which was largely overlooked at the time, has now become a powerful weapon in the hands of the Liberals, who contend it necessarily carries with it complete guarantee of freedom of speech and assembly, without which the right of petition on general questions would necessarily be a farce, and also the freedom of the press for discussion of such questions. They now propose, in order to force test of the government's sincerity, to openly organize clubs for the purpose of debating political questions. Moscow and St. Petersburg zemstvos have already voted strong resolutions demanding representation on the rescript commission.

The strike situation seems everywhere to be improving. Social Democrats here have advised the strikers, who are without money and confronted by starvation, to return to work, and less than 10,000 workmen are now out. On the other hand, the prospects of agrarian disturbances on a large scale are becoming decidedly more threatening and causing deepest concern.

Many landed proprietors are afraid to go back to their estates. The movement has not assumed a political phase, but is in the old form of a demand for redistribution of land. The agitators are shrewdly spreading the report that the emperor has decreed such division, telling peasants the proprietors do not want to submit, and thus setting them against landlords "in the emperor's name." The agitation has now spread to Simbirsk province, where peasants are making ready to begin division of land as soon as the snow melts. It is reported that the terrorists have been formally notified to cease their activity for a month and await the result of the rescript.

A story is current that a plot of aristocratic page corps has been unearthed, incriminating papers being discovered on the person of a student named Verhovsky, son of a general of that name, and another student. The authorities, however, deny all knowledge of the plot.

## AGAIN SERIOUS.

Cyama Is Striking Another Blow at  
the Defeated Russians.

St. Petersburg, March 16.—News from the front is again very serious. Field Marshal Oyama is striking another blow at the defeated Russian army. In spite of the exhaustion of his forces after the twelve days' struggle for Mukden he has been able to organize a fresh turning movement in the hope of completing the victory won under the walls of Mukden. Tuesday's attack upon the Russian advance line at Fan river, it is now evident, was only a feint while the Japanese columns are being worked around to get in position to fall upon the Russian rear, and Wednesday the blow was struck.

A dispatch to the Associated Press from Santoupu brought to St. Petersburg the first word that a battle was in progress north of Tie Pass. That General Kuropatkin was taken by surprise is a fair inference from the manner in which Tuesday night he abandoned the Fan river positions, leaving so hurriedly that he again was obliged to burn his stores to prevent them from falling into the hands of the Japanese. No clue is given as to whether the Japanese came down from the mountains east or struck in from the west of the Liao river. Tie Pass is practically the gate where the mountains and the Liao river meet, and it commands the whole country northward. With the Japanese in behind the Russian army at Tie Pass General Kuropatkin's position is extremely critical. Once the Japanese are across his rear in force, Kuropatkin will have to cut his way out or surrender.

## SECURE SINGKING.

Japanese Have Also Dislodged the  
Russians From Yingpau.

Tokio, March 16.—The Japanese occupied Singking March 13. Singking or Yenden is situated about eighty miles almost due east of Mukden.

Report received at Tokio March 14 from Japanese headquarters in the field said: "In the direction Singking our forces have been dislodging the enemy from Yingpau, eighteen miles east of Fushun, and on March 11 occupied that place."

Details of the occupation of Tie Pass had not been received at imperial army headquarters up to Thursday night. An official bulletin reported the action, and stated that the

Japanese were in not pursuit of the retreating Russians, but it does not mention any particulars of the fight.

## Copper Capitalist Gone.

New York, March 16.—A dispatch from Palm Beach, Fla., reports the death of Meyer Guggenheim, a copper capitalist. Death was caused by pneumonia. He was seventy-eight years of age.

## MOORE ACQUITTED.

He Is Declared Not Guilty of Having  
Accepted a Bribe.

Austin, March 16.—Warren W. Moore was declared not guilty on the charge of having accepted a bribe of \$12,500 to dismiss the anti-trust suit against the Kirby Lumber company. After the jury had returned its verdict Mr. Moore arose and said: "Gentlemen of the jury, my wife and I shall be grateful to you as long as we live." He then walked into the district clerk's office and met his wife. It was an affecting meeting. The verdict was received with applause and it took some time to restore order. Jury was out one hour and thirty-five minutes.

A change of venue was asked in the case against John H. Kirby. No action was taken.

## GENERAL ELECTION BILL.

House Put In Most of Wednesday's  
Session Discussing It.

Austin, March 16.—House put in most of Wednesday's session discussing the general election law.

In the senate Mr. Holland introduced a bill to authorize the formation of corporations to build bridges or causeways across bays, lakes, lagoons, etc., and to charge tolls upon same.

The railroad commission has a number of petitions from railroad employees' unions protesting against a reduction in the rates upon cotton.

## WOMEN'S MISSIONS.

## WOMEN WORKING.

Cutting Timber, Sawing and Stacking  
It on Right of Way.

Denison, Tex., March 16.—Scores of women are working along the Missouri, Kansas and Texas right of way on the Shawnee division cutting timber, sawing and stacking it. The Katy is making improvements at Tyrola, I. T., where the South Canadian river washed away many feet of track on the Shawnee division last fall. In order to avoid further trouble, the right of way has been changed and is being run along a bluff, which is thickly wooded with oak. The timber can not be used by the Katy at the present time, as a large force would be needed to clear it away. The road needs the space and has offered the wood to the neighboring inhabitants if they will clear it away quickly.

## Pythians at Temple.

Temple, Tex., March 16.—The locating committee of the Knights of Pythias widows and orphans' home, consisting of W. A. Abey of Fort Worth, C. A. Summers of Cuero and W. B. De Jernett of Commerce was here for the purpose of receiving propositions for the location of the home and inspecting the sites offered. They were taken to Midway, between here and Belton, on the Interurban line, and shown its advantages.

Niblo, famous circus clown and pantomime, has died in this city after fighting for months the ravages of tuberculosis. He came here in December a physical wreck and has never been able since to leave his bed. Niblo was fifty-three years of age and for thirty-five years had performed before the public. He was the creator of the part of "Humpty Dumpty" in the play of that name.

## A COLD, WET WINTER

At Dimmitt — Snow on the Ground for Twenty-Three Days.

Dimmitt, Tex., March 14, '05. Editor Bryan Eagle.

Wet, wet, wet, on the plains. I think our three years' drouth is at last broken up. We have had a very cold, wet winter. Snow lay on the ground twenty-three days at one time, but loss in stock was very light on this part of the plains. But down on the south part of the plains, where it rained and froze on the stock, their losses were heavy. C. C. Slaughter, I am informed, lost about 500 cattle.

We are having too much rain here now for stock, though it is warm, but it is causing stock of all kinds to shrink. Seems to be harder on sheep than other stock. Farming is getting quite a back-set on account of so much rain and snow. The fields are so wet one can't plow at all.

Our people in this county are going to plant a large acreage in oats, if the ground gets dry in time. There will also be some wheat, cotton, speltz and other crops planted that are well adapted to this country.

We have a colony of prosperous German farmers in the eastern part of Castro county who are doing a great deal toward developing this country. They have a town laid out named "Nazareth," they have a good church building, also a blacksmith shop, and a store building. As soon as completed this store building will be filled with a stock of general merchandise. In conversation with one of their leading citizens I was told that they were going into the broom corn business on a large scale. They have part of the machinery on the ground with which to build a broom factory, and expect to utilize product at home.

There has been eight sections of land sold in the Nazareth community since January 1st, 1905. The last two section brought \$4,280 with very little improvements on it.

The county is putting in a large watering tank, for stock, and also an elevated tank from which they expect to pipe it into the stores, and some of the nearest residences.

### A DANGEROUS HABIT

Gladstone's Physician Gives Warning Against a Growing American Custom.

The growing habit amongst Americans of taking a mint tablet or some other so called digestive after eating a hearty meal, is something that Sir Andrew Clarke, Mr. Gladstone's physician advises strongly against, saying, "It is absolutely dangerous to take into the stomach remedies which are popularly supposed to aid in the digestion of food."

There is nothing known to the science of medicine that can perform the work of the human stomach. Drugs do not and cannot digest the food. They simply decompose it. What can be more revolting or disgusting than the thought of taking something into the stomach that is going to turn the good food you have eaten into a mass of corruption. The only way to overcome indigestion and its evil effects is to remove all irritation, congestion and inflammation from the stomach, liver and intestines, and Mi-o-na is the only agent known that will do this.

When a Mi-o-na tablet is taken before each meal every trace of irritation and inflammation is removed from the stomach and digestive system, and those organs will extract from the food all that goes to make good, rich blood, firm muscle, steady nerves and a sound healthy body. If you suffer with headaches, indigestion, flatulency, spots before the eyes, vertigo, or dizziness, palpitation of the heart, sleeplessness, or any stomach trouble, get a fifty cent box of Mi-o-na from E. J. Jenkins one of our most reliable druggists, whose faith in the remedy is shown by his offer to return the money if Mi-o-na does not give complete satisfaction.

## THE PASS CAPTURED.

Japanese Marched Into That Place Wednesday Night.

### REPULSED JAPANESE

Latter Reported to Have Been Driven Back After a Fierce Engagement, Leaving One Thousand Corpses Behind.

New York, March 16.—Meagre reports have been received from a Russian source of a fight eight miles south of Tie Pass between a Russian force under General Mischanko and a Japanese column, the identity of which is not known. The latter was repulsed, it is said, with a loss of 1000 killed. A rumor says that after the evacuation of Mukden eighty foreigners, including an American newspaper correspondent, had been murdered by Chinese has been discredited by the fact that the correspondent mentioned reported to his newspaper on March 14 that he had been captured by the Japanese and was being taken to Kobe.

A steamer captured at Singapore reports having passed a squadron of twenty-two Japanese war ships about twenty miles east of the entrance to the Straits of Malacca. Two Japanese cruisers and two auxiliary cruisers previously arrived at Singapore. Presumably these vessels are on their way westward in search of the Russian Second Pacific squadron, last reported in Madagascar waters.

### TIE PASS OCCUPIED.

Cablegram From Niuchwang Has Imparted This Information.

Niuchwang, March 16.—Japanese occupied Tie Pass Wednesday night.

### NOT EXAGGERATED.

Armenians Estimate Their Dead at Fully Two Thousand.

St. Petersburg, March 16.—Private mail advices from the Caucasus indicate that the situation there has not been exaggerated in earlier reports. According to one letter the Armenians estimate the number of their dead at 2000.

### Little Cables.

Chicago, March 16.—Correspondent Little cables to the Chicago Daily News that he was captured by Japanese and was being taken to Kobe. He cables from Yinkow. The cablegram contained reference which demonstrated that the message was from Mr. Little personally and that he was alive and well. Yinkow is the seaport of Niuchwang and is the place where Little would naturally be taken en route to Japan.

### Claim Presented.

London, March 16.—The correspondent at St. Petersburg of the Times says that Ambassador Harding has presented to Foreign Minister Lamsdorff a claim for \$500,000 for the sinking of the British steamer Knight Commander, by the Russian Vladivostok squadron on June 23, 1904.

### Flanking Tactics.

St. Petersburg, March 16.—Flanking tactics by the Japanese apparently are in progress again, the Associated Press correspondent, who remains at Tie Pass, telegraphing that General Mischanko, on March 14, telegraphed he had engaged a Japanese force on the right.

### From Kuropatkin.

St. Petersburg, March 16.—General Kuropatkin telegraphs that a fierce Japanese attack thirteen miles from Tie Pass was repulsed and more than 1000 Japanese corpses are on the battlefield.

### TICKETS SEIZED.

Were the Property of the Honduras Lottery Company.

Mobile, March 16.—Collector of Customs William F. Tebbetts of the Mobile district Wednesday seized a million of tickets of the Honduras National Lottery company and at the same time notified General W. L. Cabell and Messrs. W. Ballumet and James Ray, alleged officials of the company to appear at his office. The company has been operating in this city for years and tickets were to be had by any person who could pay the price. Secretary of the treasury was notified and collector acted under his instruction.

### FRAZIER NAMED.

Tennessee's Governor Will Succeed the Late Senator Bate.

Nashville, March 16.—Governor James B. Frazier was nominated for the United States senate by the Democratic caucus of the legislature Wednesday afternoon. An effort to adjourn the caucus to Monday was defeated, 64 to 36. Names of ex-Governor Taylor and Hon. Benton McMillin were withdrawn and Governor Frazier unanimously nominated. Hon. John I. Cox, speaker of the senate, will become governor. Formal election of senator takes place on the 21st inst. The chief executive has served two months of his second term.

### Committed to Government.

Paris, March 16.—The French Cable company has committed its interests in Venezuela to the care of the French government, which has given assurance that it will afford the company full protection against any arbitrary action. Neither the foreign office nor the company have received any further advices from Caracas.

### Sim Simons Swings.

Clarksdale, Miss., March 16.—Simon Simons, a negro, was hanged in the jail yard here Wednesday. The crime for which he was executed was the murder of another negro.

The store was filled with customers, the clerks hustling to the limit and the goods moving as fast as they could be wrapped up.

## PUT ASIDE.

Berlin Advises State That Russia Will Continue War.

Berlin, March 16.—The German government has been informed that the Russian emperor has again put aside all peace suggestion, and is unshaken in his resolution to continue the war. All higher officers of the far eastern army recently joined in a petition to Emperor Nicholas not to consider peace, asking that they be given other opportunities to show the quality of Russian valor, and representing that although they retreated, they still have a willingness to fight.

## RUSSIANS RETREATED.

Abandoned Their Advanced Positions on Far River After Lively Fight.

Tie Pass, March 16.—Information from Santoupi, eight miles north, says the Russians have abandoned their advanced position on the Far river, where the desperate attack of the Japanese was repulsed, and have fallen back upon the defenses of Tie Pass. Previous to retreating they collected supplies and set them on fire.  
A desperate and bloody battle was reported in progress north of Tie Pass.

## Was Not Killed.

Paris, March 16.—Ludovic Nadeau, the French newspaper correspondent, who was reported from Santoupi to have been killed by Chinese at Mukden after the Russian retreat at the same time that Mr. Little, correspondent of the Chicago Daily News, was erroneously asserted to have lost his life, cabled to his paper, the Journal, that he was made prisoner at Mukden by the Japanese and that he would be sent to Japan, where he hopes to regain his liberty.

## PRECIPITATED PANIC.

Hundreds of Persons Frightened by a Rear End Collision.

New York, March 16.—Two persons were badly hurt and a dozen others slightly injured, while hundreds were thrown into a panic by fear of a rear end collision between two southbound Sixth Avenue elevated trains at Seventh-second street and Columbus avenue during the forenoon rush hours Thursday.

A train which had just stopped at a station was run into by another that had been following it closely. The most severely hurt was William McCusky, who received a badly lacerated wound in the head, and Edward C. Frank, who suffered the fracture of a knee. The passengers said the collision was due to attempts of the motor-man of the rear train to discover how near he could bring his train to the one ahead of him without hitting it. They aver he made several such attempts before the accident, then became confused and failed to stop his train in time. Passengers on both trains became angered when they discovered the alleged cause of the accident, and made a rush for the motor-man with cries of "Lynch the motor-man!" and "Mob him!" The police reserves were then called out.

## CASH FOR COMANCHES.

Six Hundred of That Tribe Are Receiving Their Allowances.

Lawton, March 16.—Six hundred Comanche Indians are receiving their semi-annual government money at Indian trading posts under the supervision of Major James F. Randlett of Anadarko, United States Indian agent of tribes of southwest Oklahoma. Each Indian receives \$50 regular allowance, and many grass money. Between \$75,000 and \$100,000 is to be disbursed.

An act passed by the recent congress provides actions brought against Indians or property in Oklahoma whose affairs are under the supervision of an Indian agent or bonded superintendent shall be brought in the district court in the county in which the Indians reside. Heretofore justice and probate courts have had jurisdiction over such matters.

## LARGE INCREASE.

Texas and Pacific Railroad Makes a Gratifying Annual Report.

New York, March 16.—The Texas and Pacific Railroad company's annual report, just issued, shows an increase in gross earnings of \$338,000, as compared with the previous year. Total expenses fell off to the extent of \$174,000, causing an increase in the net profits of \$512,000. The total receipts were \$1,433,000. A surplus of \$1,271,000 is shown by the report, an increase of \$75,000 over the previous year.

## DECLARED LEGAL.

Supreme Court Holds Contrary Opinion About Sixty-Second Court.

Austin, March 16.—The supreme court holds that the Sixty-second district court, composed of Lamar, Hunt and Delta counties, is constitutional, this holding being contrary to that of the Dallas court of appeals. The essence of the opinion is that if the legislature takes sufficient action to bring a district court into existence it cannot deprive that court of jurisdiction over any matters contemplated by the constitution; also, that if the legislature provides for only one term per annum of a district court in any county, the act will not be invalid if that county already has a district court which holds two terms annually.

The validity of the act creating the Sixty-second court was questioned upon the ground that the legislature provided that the judge should not impanel a grand jury except in his discretion, that he should not impanel a petit jury and that he should hold only one term annually in Delta county.

## CONTRACT VALID.

Statement of Cone Johnson Relative to Cotton Belt Removal.

Tyler, Tex., March 16.—Hon. Cone Johnson, just arriving from Austin, stated that he learns that the opinion of the court of civil appeals in the Cotton Belt general office case holds that Tyler's contract with the road is valid and binding, but that the right court to pursue should the offices be moved would be a damage suit. This information has heretofore not been given out, and is considered a partial victory for this city, as the road would face a serious damage suit. If the supreme court holds up the court of civil appeals the damage suit will follow.

## Captured Two.

Enid, Okla., March 16.—The Helena State bank of Helena, Woods county, west of here about twenty miles, was entered by four men and the safe ruined by a charge of nitro-glycerine. Only the outer door was blown off, and the robbers were frightened away. Two were later caught.

## Cavein Fatal.

Methodist church here, was killed by a dugout on his farm, thirteen miles northwest of here, caving in on him. The rest of the family escaped unhurt.

## PROBABLE ACTION.

It Is Thought a Charge of Murder Will Be Made.

Honolulu, March 16.—It has been ascertained that some action probably will be taken at San Francisco, after the arrival of detectives detailed there to investigate the recent death of Mrs. Stanford at this city. Captain Callahan, when asked if this action would be along criminal lines, replied that all work of detectives were along criminal lines. Both detectives now here when interviewed stated they had instructions not to talk about the case. This caution was probably received from San Francisco. Both refused to discuss Professor Jordan's opinion that Mrs. Stanford's death was not due to strychnine poisoning. It is now believed that if her death had been natural this conclusion would have been announced in due course by the detectives, and their attitude and replies to questions indicate strongly the possibility that a murder charge will be made against some one. The detectives cabled a long message to San Francisco.

## TERRIFIC CRASH.

T., was seriously injured and several other passengers received minor injuries.
